

cbdMD™

POWERED BY NATURE. ENHANCED BY *SCIENCE*.™

Here at cbdMD, we pride ourselves on two things: quality and innovation.

Our goal is to produce the industry's highest-quality CBD while using state-of-the-art growing and extraction techniques. Take the highest-quality hemp, combined with the industry's most sophisticated extraction methods, and it's obvious why our CBD is the first choice for everyone, including world-class athletes.

Lab Tested

USA Hemp

Broad Spectrum

THC-Free*

GMP Certified

** THC-free is defined as below the level of detection using valid scientific analytical tools.*

WHY SUPERIOR BROAD SPECTRUM?

Our revolutionary Superior Broad Spectrum formula expertly combines CBD, CBG, and CBN cannabinoids with terpenes – creating a far more enhanced CBD product that delivers on maintaining the perfect balance of health and wellness. Not only does our Superior Broad Spectrum formula redefine the industry standard for effectiveness and quality, but it also retains no detectable THC* levels while sustaining consistency with the concentration levels of wholesome cannabinoids.

cbdMD boldly blazes a brand-new trail in the industry landscape by rewriting the current, outdated principles of CBD manufacturing. And while others are easily satisfied with the way CBD production has been, cbdMD further expands its boundaries with a new, unprecedented formula that isn't found anywhere else.

Reclaim your health and self-care with cbdMD – a **Superior CBD for a Superior YOU.**

** THC-free is defined as below the level of detection using valid scientific analytical tools.*
